

# Smart Ring Link

## How to

Print this PDF at actual size 100% on an A4 sheet with landscape orientation.

To ensure the accuracy of the result, make sure the line on the right is exactly 10cm long.

Take a ring that you wear on the same finger where you want to use the smart ring and start placing it over the various circles.

When the black circle matches the inner space of your ring, you've found your size!

If your ideal size is between two different sizes, we recommend choosing the larger one.
